

FLOW-LINER®

“WASTES NO TIME”

UTILIZING NON-INVASIVE TECHNOLOGIES

About Ergon, Inc.

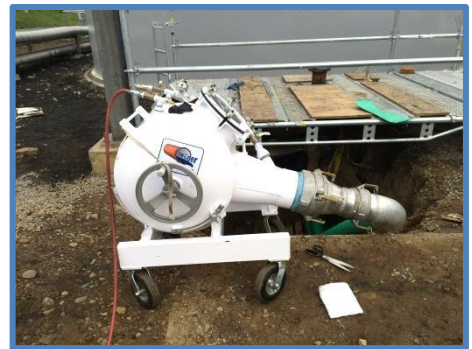

Ergon, Inc., is a privately held company and operates under six primary business segments: Refining & Marketing, Asphalt & Emulsions, Transportation & Terminaling, Oil & Gas, Real Estate, and Corporate & Other.

ERGON- West Virginia, Inc.

Issue

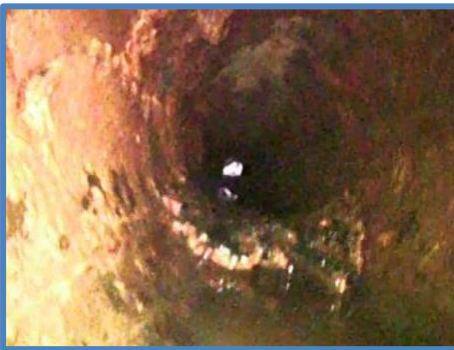

ERGON, Inc. had an underground 6 inch ID steel pipe at their waste water treatment facility that was in need of repair. Excavation was undesirable due to the pipe running under a concrete processing tank.

Flow-Liner® Inversion System

Solution

ERGON contacted Flow-Liner® for a trenchless technology solution. A Certified Installer used the Flow-Liner® Cured-in-Place-Pipe lining system to resolve the problem.

Before Flow-Liner® was Installed

Results

The Flow-Liner® Installer successfully lined the steel pipe. The Facility Engineer made the following remark; *“The lining process was very cost effective in that it eliminated the need to replace the line and without breaking up the tank’s floor.”*

After Flow-Liner® was Installed

We are pleased to announce another successful project and proudly add
ERGON, Inc.
to our list of happy and satisfied customers.
